ANOTHER LESSON IN GOVINT CONTROLS...
It would appear by now that these United States and its citizens are to have it dawn on 'em that Govmint price controls and allocations & regulation are a pie in th' sky kind of thing that just don't work since they always get thangs messed up and create more problems than they cure. Shortages always develop, and crooks always prosper and th' average consumer gets it in th' neck, sooner or later.
Producers aint gonna produce if controls cause 'em to lose money or take away their rights in th' market place. While it would seem almost impossible to find any thang good in th' current & recent hard winter weather, it may have weakened some of th' wind jammers in Congress and accordin' to today's papers it may have even created an awareness in Jimmy Carter that all is not well with (CONT. Prospective Plantings For 1977 Listed
The purpose of this report is to assist growers in making such changes in acreage plans as might appear desirable. Acreages actually planted this year may be more or less than indicated because of weather, economic conditions, labor supply, farm programs, and the impact of this report itself on farmers' actions. This survey covers 35 states.

Total 3% Lower Than Last Year, Inbound Feeders Up 5% In Last Quarter, Steers Percent At 9-Year Low

Washington, Jan. 21 (USDA) — Cattle and calves on feed for slaughter markets in the 23 major cattle feeding states surveyed on Jan. 1, 1977 totaled 11,928,000 head, according to the Crop Reporting Board. This is 3% fewer than in feedlots a year ago, but 24% above the January 1, 1975 total. Cattle in feedlots on January 1 were up 29% from the number on feed October 1, 1976. Placements of cattle and calves in the 23 states during the October-December 1976 quarter to (CONT. ON PAGE 7)

Fed Cattle Higher Monday At Major Markets, Hogs Sell Off
Receipts of slaughter cattle were a little lighter around the terminal markets on Monday and prices were generally strong to unevenly higher. Hog receipts were about 10,000 above a week ago and lower prices prevailed. Price trends, quotations on choice and prime steers and hogs and the mixed good and choice fed cattle, and U.S. 1-3 hogs scaling mostly 200-270 pounds included:
Omaha fed cattle 50-75c higher, steers 37.50-38.25 and 37.00-37.75; haffers 38.25-38.50 and 35.50-36.50. Hogs 25c higher early, but closed slow and weaker, at 39.00-42.25. Sioux City steers firm, haffers steady to 50c higher. Steers 37.50-38.75 and 36.50-37.50; haffers 38.75-37.50 and 35.00-36.00. Hogs fully 75c lower at 39.00-41.75. (CONT. ON PAGE 15)

OSHA Nomod To Advisory Post
Appointment of Wray Finney of Ft. Cobb, Okla., to the U.S. Labor Department's 15-member Standards Advisory Committee on Agriculture has been announced by Secretary of Labor W. J. Usery. Finney is President of the American National Cattleman's Association.
The committee will advise the Labor Department's Occupational Safety and Health Administration on standards and policy relating to protection of agricultural workers from on-the-job injury and illness. The committee includes four representatives each of employers and employees, three representatives of the public, and two representatives each of state governments and of the federal government. Finney will serve as an employers' representative.

Replacement Cattle Prices Were Mixed Last Week, Winter Storms Factor
Kansas City, Jan. 21 (USDA) — National Feeder Cattle and Calf Summary. Approximately 157,000 this week, 161,000 last week, 188,000 last year. Although prices were mixed again this week, more reporting points swung to the higher side than slipped to the lower side. River terminals were steady to 1.00 higher except Sioux Falls steady to 1.00 lower. This is a recovery from early sharp declines. Oklahoma City was steady to 50c higher but Amarillo steady to 1.00 lower while Dodge City, Kansas slipped to the lower side. River (CONT. ON PAGE 9)

controls and allocations of gas & oil as a partickler case in point. It is reported that Jimmy Carter may seek to decontrol gas to keep folks from sufferin' and losin' their jobs due to the shortages.

We can't find much fault with gas producers who don't want to sell or spend billions of dollars drillin' for more gas and oil, when their product is taken away from 'em at unreal prices and given to consumers at like-wise unreal prices.

We saw somewhere the other day where the Joint Council on Economic Education surveyed 20,000 high schoolers and discovered more than half of 'em did not know the difference between collectivism and free enterprise. In fact most of the kids did not even know the United States economy is based on what was smilingly referred to as Free Enterprise. This one's not to be surprised since when our educational system don't teach 'em to read, write or figure with any degree of skill, they can't be expected to understand economics. Someone referred to the American people as Functional Eco-

nomics illiterates. Zola's Functional Economic illiterates makes the rank & file citizens easy prey for demagogues in politics and special interest groups. P. T. Barsum once said there was a sucker born every minute, and these people who take advantage of the economic ignorance that abounds in this country and blame one segment of business or another for the problems in energy, food or other stuph isle of seriously tacklin' the situation we are in, should be shook up at the conditions in the energy field, the agricultural & livestock fields, and other things that are out of joint.

Perhaps this hard winter and the losses & sufferin' it has caused will convince the Bureaucrats and Politicians that OPEC really has our country by the throat and can strangle our economy when they feel in the mood. Maybe this crisis will convince some of the blow hards it is time to get movin' to get us outta this trap as Free Enterprise. This one's not to be surprised since when our educational system don't teach 'em to read, write or figure with any degree of skill, they can't be expected to understand economics. TAHC Adopts New Interstate Rules

(CONT. FROM PAGE 1) present interstate regulations is the requirement that hifers over 18 months of age must be brucellosis tested prior to shipment, quarantined on arrival and tested again within 15 days.

Marvin McMillan, chairman of the Texas Cattle Feeders Association Regulatory Committee and other cattlemen insisted that the age be raised to 18 months, rather than the original proposal placing the age at 12 months. They pointed out that the 12-month age limit would restrict inter-

Triple C Ranch Breeder Of Grand Champion Steer

The Grand Champion steer of the Burnett County Youth Livestock Show shown by Cody Rutledge of Burnett, was bred by the Triple C Simmental Ranch of Lampasas, Texas. The Triple C Ranch, located 15 miles south of Lampasas, plans a Simmental breeder in the U.S. and home of Tito, the first American bred Simmental bull, presented to Cody a check for \$100 for showing a grand champion steer bred by the Triple C Ranch.

This \$100 cash award is given to the exhibitor of every grand champion steer bred by the Triple C Ranch.

Under the new regulations hifers from out-of-state may be shipped to quarantine approved feedyards without testing. However, those hifers must be "S" branded on the tailhead or jaw.

Cattle On Feed

(CONT. FROM PAGE 1) tated 8,775,000 head, up 5% from the corresponding period a year ago and 34% above the similar period in 1974. Marketings of fed cattle for slaughter during the quarter totaled 5,894,000 head, up 15% from the same quarter in 1976 and 3% above 1974. Other disappearance totaled 418,000 head, compared with 382,000 in 1976 and 535,000 in 1974.

There were 7,799,000 steers and steer calves on feed, 8% below a year earlier but 13% above 1975. Steers and steer calves accounted for only 66% of the total, the lowest January 1 percentage for these steers during the last nine years. Halfers and heifer calves totaled a record 4,088,000, up 2% from January 1, 1976 and 54% above 1975. Halfers and heifer calves accounted for 54% of the total, the highest January 1 percentage during the last nine years.

During January-March 1977 cattle feeders intend to market 8,111,000 head, 4% below the first quarter marketings in 1976 but 11% more than the same quarter in 1975.

Cattle and calves on feed for slaughter market in the seven monthly states (included in the 23 state totals) were estimated at 8,202,000 head, down 4% from a year earlier but up 3% from December 1, 1976. Placements during December were 1,789,000 up 11% from a year ago. Marketings were 1,473,000, 28% more than in December 1976.

Seven states cattle on feed Jan. 1: Arizona 881,000 on feed, 71% of the total a year ago. Placements in December 82,000 or 10% compared with last year.

California 801,000 on feed Jan. 1 or 83% of a year ago. Placements at 182,000 in December were 94% of the number a year earlier.

Colorado with 915,000 on feed stood at 89% of a year ago. Placements in December were 172,000, or 104% of the figure last year.

Iowa had 1,520,000 on feed, or 99% of the number a year earlier. Placements in December at 420,000 head were 109% of the number last year.

Kansas with 1,815,000 on feed stood at 89% of last year's figure. Placements in December of 248,000 were 114% of last year's figure.

Nebraska had 1,890,000 on feed, or 114% of last year's total. Placements in December at 405,000 head were 169% of last year's total.

Texas had 1,710,000 on feed, or 91% of last year's figure. Placements at 280,000 head were 87% of last year's total.

Texas Cattle On Feed Declined 9% From Last Year

(CONT. FROM PAGE 1) Service. This is 9% below the 1,882,000 on feed January 1, 1976, and 1% below the 1,725,000 on feed last month. Steers accounted for 58% of the total, halfers 44% and cows, bulls and others less than one percent.

District 1-N had 1,185,000 head on feed — 825,000, steers, 804,000, halfers, and less than 1,000 cows, bulls and others. The remainder of the state had 689,000 on feed, 87% steers, 43% halfers and less than one percent cows, bulls and others.

"Large" feedlots — those with 1,000 plus capacity — were fattening 1,895,000 cattle for the slaughter market on January 1. There were 177 large lots that marketed some cattle during 1976 compared with 179 in 1975. Seven percent of these lots were vacant January 1, 1977. The lots that were feeding as of January 1, 1977 have an occupancy of 69% of their capacity.

There were 1,185,000 cattle placed on feed in Texas feedlots from October 1 to January 1, 4% below placements a year earlier. Texas feeders marketed 868,000 cattle during the last quarter of 1976, 19% above marketings during the same period in 1975.

Feedlot operators reported intentions to market 950,000 cattle between January 1 and March 31. This would be 55% of the number on feed January 1 and would be 14% lower than marketed during January 1-March 31 quarter last year.

"Proper care of your animals just makes good sense — especially during these tight times!"

Cattle on lush green oat and wheat pastures don't need a protein supplement, but they do need help to make best use of the grazing they get.

Cold wet pastures are often a source of foot rot and soft tissue lumpy jaw. Wendland's Pasture-Guard Pellets, medicated with EDDI, guard against these problems. Magnesium deficiency causes grass tetany. Wendland's Pasture-Guard Pellets contain over 2% magnesium to help guard against this problem. And, they contain roughage to slow down feed passage and improve digestibility. This and a blend of vitamins, minerals and nutrients will help prevent bloat under the worst pasture conditions. See your Wendland's Feed Dealer soon and guard your profits with Pasture-Guard!

motion to improve, maintain, and develop markets for cattle, beef and beef products. Producers not wishing to participate in the program will have their assessments reduced by the board.

Such a program is authorized by the Beef Research and Information Act of May, 1976. USDA's recommended decision is based on evidence received at public hearing sessions held in Dallas, Tex.; Denver, Colo.; Pittsburgh, Pa.; Atlanta, Ga.; San Francisco, Calif.; and New Orleans, La.

Until Feb. 24, 1977, anyone interested can file exceptions to the recommended order and in brief support their exceptions. Five copies of exceptions should be submitted to Hearing Clerk, Room 112-A, U.S. Department of Agriculture, Washington, D.C. 20250, where they will be available for public inspection.

The recommended decision is scheduled to be published in the Feb. 27, 1977 Federal Register. Single copies of the recommended decision can also be obtained from the Hearing Clerk's office.

averaged fully steady. Iowa auctions were 1.00-2.00 lower.

Wyoming was steady to 1.00 higher; Colorado yearlings steady to 1.00 higher but calves shot up firm to 3.00 higher, mostly 1.00-2.00 higher. California showed light trading at steady to 1.00 lower and Washington steady to 1.00 lower, steers under 600 lbs. showing most stability. Montana was firm on heavy yearlings.

Kentucky held steady on storm shorted supplies while snow and cold in Tennessee did not stop prices from rising steady to 2.00 higher. The Southeast complex states of Georgia, Florida, Alabama and South Carolina sold yearlings steady to 1.00 higher in Florida and Georgia but steady to 1.00 lower in Alabama and South Carolina; heifer calves were steady to 1.00 lower except Georgia steady to 50 higher.

Winter storms again disrupted trading and transportation but there were indications that the weather pattern was beginning to moderate.

Feeders use Charolais for one reason: to make money.

The reason they make more money is because Charolais crosses

Make faster daily feedlot gains.
Require less feed per pound of gain
Produce more quality lean per cwt of carcass
Have the size and frame to go on feed at an early age

These Charolais benefits put feeders in a prime profit-improving situation . . . they're a natural to take advantage of New Beef Grades.

L. M. Haupt's Shorthorn Career Started With Heifer In 1920

College Station, Texas—Lewis M. Haupt, Jr., president of the Texas Shorthorn Assn., started his career breeding Shorthorns with a heifer given to him by his father in 1920. Haupt still has descendants of that heifer in his Shorthorn herd today.

In 1923, Haupt's father, L. M. Haupt Sr., bought a small herd of Shorthorns and joined him in the business giving it the name L. M. Haupt & Son. Today the son in the outfit is L. M. Haupt III, a graduate of Rice University and now a geophysicist living in Houston, but who also has interest in the Shorthorn cattle.

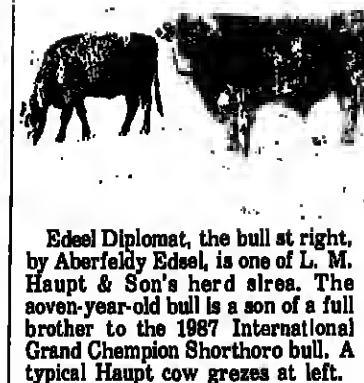

"Things have changed a little bit in the cattle business since the 1920's, but I've always tried to keep my cattle 'kinda middle-of-the-road', neither extremely little or big—the kind that can go into my herd and do a good job," he said.

Much of the Haupt breeding has been done with bulls obtained from the famous Aberfeldy Farms owned

by Rayford Gerdhouse, in Canada, because when he started there were only two Shorthorn bloodlines available in Texas, and he wanted outcross bloodlines. Through the years, he has continued to buy Aberfeldy bulls when he needed them because they worked so well for him.

Several of the bulls Haupt has used were owned jointly with his brother-in-law, Joe F. Bennett of Coolidge, Texas, another long-time Shorthorn breeder. Together they purchased Aberfeldy Red Gountlet, a bull which established the present record of 4.08 pounds gain per day for the Shorthorn breed. Bennett & Haupt also have another bull coming from Canada now. Aberfeldy Scoutmaster, a grandson of the famous Australian bull, Mandelung Royal Ambassador.

Haupt says, "Joe and I never hesitate to line breed a little bit, and it doesn't make much difference which of our bulls we use, the calves always look just alike."

Edel Diplomat, the bull at right, by Aberfeldy Edel, is one of L. M. Haupt & Son's herd sires. The seven-year-old bull is a son of a full brother to the 1967 International Grand Champion Shorthorn bull. A typical Haupt cow grazes at left.

TEXAS SHORTHORN LASSIES ACTIVITIES ARE SCHEDULED

Mrs. Dan Tillman of Weatherford, President of the Texas Shorthorn Lassie Association, has scheduled the group's winter meeting for Monday,

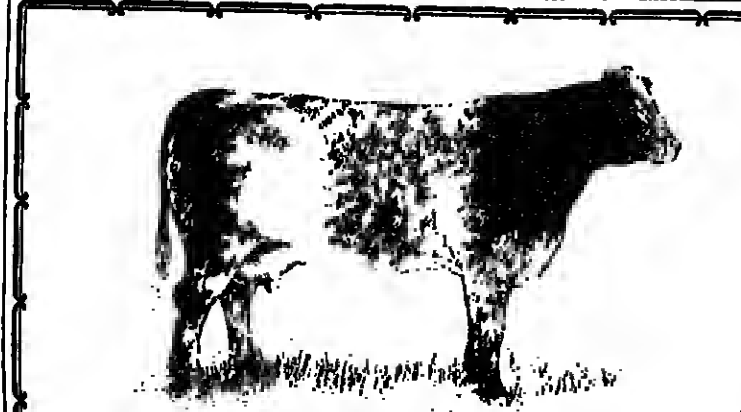

January 31, immediately following the open Shorthorn show at the Southwestern Exposition and Fair Stock Show. The meeting will be held in the executive committee meeting room in the main office. All members are urged to attend and welcome to bring a guest.

Lassies will be "talking the Reels, Whites, and Roans" from the Shorthorn booth January 29, 30 and 31. The booth will be located next to the cattle. Miss Kathie Chumley, Texas Shorthorn Lassie Queen, and Miss Sherri Brooks, Lassie Princess, will be presenting ribbons to the junior Shorthorn heifer exhibitors Sunday, January 30 at 9:00 a.m.; and Monday, January 31 at 8:00 a.m. for the open Shorthorn cattle show.

Lewis M. Haupt Jr., president of Texas Shorthorn Assn., is shown with some of his cows in his pasture near College Station.

Riverside Royal Mint by Joe F. Bennett is a four-year-old bull. M. Haupt & Sons bought from Trigg Bros. at Bastrop. This bull is one of the Haupt herd.

-A new look at an old breed

Shorthorns have been with us a long time and they're here to stay. This breed has proven that it can provide you with a steady, quality product. But Shorthorn breeders won't be satisfied with that. They are constantly improving the breed to provide the producer with success in a competitive market.

800 Commercial Hereford Heifers In Show-Sale At Fort Worth Show

Fort Worth — The seventh annual commercial Hereford heifer show and sale in connection with the Southwestern Exposition and Fair Stock Show will have an offering of 800 purebred commercial Herefords in the sale starting at 1 p.m., Sunday, Jan. 30 in stock show barn No. 8.

The heifers will come from 22 leading Texas Hereford breeders including: Estate of S. B. Burnett & Tom L. Burnett Cattle Co., Fort Worth; Paul Deuer, Panhandle; W. K. Gordon, Jr., Fort Worth; MO Cattle Co., Albany; Swenson Land & Cattle Co., Inc., Stamford; Richard Windham, Baird; J. A. Mathews, Albany; George Glacock, Gresson; C. J. Davidson, Fort Worth; Buster Carter, Pampa; Double U Hereford Ranch, Levelland; Boone Ranch, Littlefield; and J. E. Birdwell, Lubbock. Also Coldwater Cattle Co., Inc., Amarillo; Summerour Hereford Ranch, Dalhart; Chester Latham, Dalhart; H. C. Lewis, Lubbock; L. C. McDonald & Son, Sterling City, Tex.; Latham, Dalhart; A. M. Warren, Canyon; Albert Haase, Rhine; and Charles Elliott, Stephenville.

The bred and open heifers will be judged and sold in pens of 20 head, with a total of \$4,000 in premiums awarded, including a \$500 prize for each first place pen.

Judges include Glen Klippenstein, Glenkirk Farms, Mayville, Mo.; Phil Bilegen, Montoya, N.M.; and Dr. John Nence, Sam Houston State University, Huntsville. Classes include heifers calving after Sept. 1, 1975, and heifers calving between Sept. 1, 1974, and Aug. 31, 1975. The show will start at 8 a.m., Jan. 30.

According to Jack Chastain, secretary of the Texas Hereford Assn., "These heifers are the real keeping kind that have been set aside especially for this annual event. I know of no other place where a buyer can select replacement females comparable to the quality that will be offered or in such great volume. Hereford females are noted for their ability to produce regularly and grow out a good calf."

Other Hereford activities during the Stock Show include the Junior Hereford steer show Saturday, Jan. 29 in purebred classes; the Junior Hereford heifer show Sunday at 3:30 p.m., Sunday, Jan. 30; and the open breeding show designated as the "Jack Turner Register of Merit Hereford Show" at 8 a.m., Monday, Jan. 31.

The annual banquet and meeting of the Texas Hereford Assn. will be held at the Green Oaks Inn, Monday, Jan. 31, with a social hour beginning at 8 p.m., and the banquet at 7 p.m.

Mrs. L. M. Haupt Jr. has a slight problem — 14 AKC registered Collie puppies for whom she would like to find a new home. "Their daddy is a good cow dog that I couldn't do without," her husband said.

For additional information and reservations for any of these activities contact the Texas Hereford Assn., 3345 Winthrop Ave., Fort Worth, Texas 76116, phone 817/732-7797.

Kimbell MEDICATED FEEDS ARE MONEY MAKERS

It goes without saying that no program or type of feed can guarantee a profit on a particular set of livestock. However, it is possible to guarantee that with proper management a feeding program will make livestock more valuable — better money makers.

KIMBELL Medicated Feeds Are Designed to Improve Animal Health and Balance Nutrition

This type of program improves the appearance, gives livestock the "good doing" look — this convinces your buyers they are "worth more."

This type of program actually makes your livestock "do better" — control of disease and parasites adds pounds — they are "worth more."

Terrill Farm Supply
Too Busy For Auction,
Offers Special Prices
Terrell, Texas - Bob Mitchell,
president of Terrill Farm Supply Co.,
Inc., John Deere Sales & Service, said
"We usually have a clean-up auction
each spring, but due to the large
volume of business we are doing, we
are unable to stop to get ready for
one."
So the firm is running a special on a
large number of used and new large
and small tractors, combines, and
row-crop equipment. The firm has
around 80 new and used tractors and
over 400 pieces of farm equipment in
stock from the smallest to the largest.
"The firm trades on, and offers
financing on its tractors and equip-
ment."

WOOL SUMMARY
National Wool Market Review, Jan.
21 (USDA) - Very little trading
occurred on domestic wool this period
as many in the wool trade were
attending the National Wool Growers
convention, but more importantly
very little wool is available. Shearing
has begun in Arizona. No new
development reported on mohair.

National Devon Sale Set Feb. 15
In Jackson, Miss.

Jackson, Miss. - Consignments from coast to coast - Mississippians to California and Oregon are sending cattle to the sixth annual National Devon cattle sale to be held here Tuesday, Feb. 15, at 6 p.m. following a Devon show that morning at the Dixie National Livestock Show in the Mississippi State Coliseum.

Selling will be 65 head including 10 bulls and 55 bred and open heifers, one of the most exclusive selections of Devon cattle ever offered in the U. S.

Robert P. Dunn, Victoria, Texas, president of the Devon Cattle Association, Inc., says "Devons have since 1928 for grow power, red meat and mother cow merit. They are the ideal breed to cross with any breed or crossbreed."

Stratford of Texas Inc., Files Chapter 11 Bankruptcy
Houston - Stratford of Texas, Inc. announced today that Stratford and its domestic operating subsidiaries had filed voluntary petitions under Chapter XI of the Federal Bankruptcy Act in the United States District Court for the Southern District of Texas. Under Chapter XI, a company continues to operate under court protection from creditors while it attempts to work out a plan for paying its debts. Stratford's principal bank has indicated to the company its present intention to finance its limited basic the company's day-to-day operations in the Chapter XI proceeding. The bank is not obligated, however, to continue to extend credit. Stratford also announced that it had incurred an estimated pre-tax loss from its domestic operations of approximately \$4,800,000 in the fourth quarter of the fiscal year ended Nov. 30, 1976. In addition, possible audit adjustments could substantially increase the domestic loss for the fourth quarter. An audit for fiscal 1976 is in progress.

C.O.B.A. Sets Nine A.I.-Palpation Schools in 1977

Sheep On Feed Sharply Lower

(CONT. FROM PAGE 1)
1977 for slaughter market in the 28 feeding states totaled 1,789,000 head, down 8% from a year earlier and 17% under the January 1, 1976 mark. Sheep and Lamb on feed in the seven selected feeding states (California, Colorado, Iowa, Kansas, Nebraska, South Dakota and Texas) totaled 940,000 head - down 8% from a year earlier and 18% below January 1, 1976. This total is a record low for the seven state series which started in 1959.

The January 1, 1977 seven state total was down 13% from the November 1, 1976 number on feed as a result of lower placements and increased marketings during November-December 1976. Placements totaled a record low 461,000 head, 13% below the same period a year earlier.

Placements were down in five states but unchanged in Iowa and up in Nebraska. November-December 1976 marketings at 850,000 head were up 4% from the year earlier period and the highest since November-December 1973. Marketings were above the year earlier period in Colorado, Kansas, Nebraska, and South Dakota, unchanged in Iowa, but down in California and Texas.
